What is Call&Check?

Call&Check enables people to live independently and confidently in their own homes. Regular visits are made by your postie daily or weekly, or as required. When they call and check, your postie asks you five short questions to find out how you are and if you need anything. Any answers that require action will be passed by the postie to the Call and Check team who will contact your approved and trusted person.

Who can use Call&Check?

Perhaps you, or someone you know, would benefit from a regular visit by one of our posties on their rounds. A typical Call&Check customer may be anyone of any age who may be living alone or just left hospital or is going through treatment - anyone who would benefit from seeing a friendly face who is there to check they are OK.
